Enahancing the capacities of public administration in Moldova - South Development Region	Enhancement the volume of funding from the National Regional Development Fund and other external financial sources leading to socio-economic development of the region by increasing the number of quality projects to be submitted to the NRDF and raising the success ratio of submitted projects.	The purpose of the project is to increase the living standards of the population of SDR. Currently the region does not have sufficinet own finances to implement regional development projects. That originates from deficiencies in the capacity of public administration staff who are in charge of submitting projects aimed at regional development.	01/10/2014	Capital - general		150 - GOVERNMENT AND CIVIL SOCIETY, 400 - MULTISECTOR/CROSS-CUTTING																										73 251,94																73 251,94

National Biodiversity Planning to Support the implementation of the CBD 2011-2020 Strategic Plan in Republic of Moldova	Projects objective is to integrate Moldova's obligations under the Convention on Biological Diversity (CBD) into its national development and sectoral planning frameworks through a renewed and participative 'biodiversity planning' and strategizing process, aligning the results of the process to the global guidance contained in the CBD's Strategic Plan for 2011-2020.	The project's goal is to enable Moldova to integrate its CBD obligations into national planning processes, in light of the CBD's Strategic Plan 2011-2020.	01/12/2011	Recurrent - general	31/12/2014	400 - MULTISECTOR/CROSS-CUTTING														55 246,49				105 827,19				14 657,6																			175 731,28

	e change through provision of financial and technical support for iNDCs implementation. The project will also support the Government to put up institutional arrangement and built capacities of national experts and stakeholders in iNDC processes.	Agreement; and (2) Preparation and submission of intended nationally determined contributions to the 2015 UNFCCC Agreement. The project will not only support the Republic of Moldova to build on existing climate change policies and strategies but also to develop additional policies and strategies within the framework of its development plans.

ECONOMIC STIMULATION IN RURAL AREAS OF MOLDOVA	The objective of the contribution is to stimulate the economy and promote regional development by financing small investments prioritized by the local communities. Investments will typically be renovation of rural roads and water supply facilities as well as local schools that are constraints to development and drive migration.	The project will favor labor intensive methods over capital intensive. This aims at mitigating the effects of the crisis by creating employment opportunities and wage incomes in the communities, and will not effect the cost efficiency, quality or sustainability of investments.	31/01/2009	Recurrent - general	31/12/2011	250 - BUSINESS AND OTHER SERVICES					1 912 400																																		1 912 400

	around three main components																																												
Evaluating and Strengthening National and Regional Capacities for Implementing the Globally Harmonized System of Classification and Labelling of Chemicals (GHS)	This proposed project aims at analysing the status of chemical hazard classification and communication, and GHS implementation at the national and regional levels. The overall objective of the project is to enable Central and Eastern European countries to lay the groundwork for considering regionally coordinated implementation of the GHS and thus contribute to the implementation of SAICM, and the protection of human health and the environment from dangerous chemicals.	• enable the implementation of SAICM through support of GHS capacity building• facilitate regional and national commitment and implementation of the GHS in the CEE region • raise awareness of, and train a critical number of decision makers and stakeholders in the CEE region about the GHS, its relation to SAICM, and its potential benefits for sustainable development	15/09/2011	Recurrent - general	15/12/2013	140 - WATER AND SANITATION											135 901																													135 901
