Extension of the successful model of inclusive preschool education in Moldova"	Scopul acestui proiect este de a promova incluziunea educatiionala a copiilor cu cerinte educative speciale de virsta prescolara prin crearea unor modele de gradinite incluzive la nordul si sudul republicii, dezvoltarea capacitatilor personalului din gradinitele model in lucrul cu copiii cu dizabilitati, elaborarea mecanismelor care vor imbunatati accesul educational pentru copiii cu nevoi educationale speciale din Republica Moldova. Necesitatea proiectului este argumentata de urmatoorii factori: The aim of this project is to promote educational inclusion of preschool age children with special educational needs by developing models of inclusive kindergartens in the Northern and Southern parts of the republic, developing the abilities of model kindergarten's staff when working with disabled children, developing mechanisms that would improve the access to education of children with special educational needs from the Republic of Moldova. The necessity of the project can be motivated by the following factors: Marea majoritate a copiilor cu dizabilitati de virsta prescolara sunt crescuti in familie, fara a avea acces la procesul educational general; The large majority of preschoolers with disabilities are being educated at home, with no access to the general educational process;		01/08/2013	01/12/2014	Czech Republic	Grant														394 467,86	394 467,86

Inter-universities Start-Up Centers for Students' Innovations Development and promotion	The project main idea is to develop training courses and distance learning system to increase business activity and creativity of university students, and to organize an informational support of their start-up projects in the frames of Start-up centers established at the universities. This will help students to gain knowledge and experience in innovation business, intellectual property rights protection, real-world business projects development, sustainable relationships with domestic and foreign investors and partners. The expansion of business relations is mutually beneficial for both students and employers because it allows to increase creativity and practical value of university graduates, and provide an influx of new ideas into innovation business in partner countries.	1. Developing inter-university Regional Start-up Centres (RSC) and cooperation network between consortium members based on international academic and professional experience as a tool to implement innovative ideas and technologies. 2. Modernising engineering and computer science (CS) study programs and creating methodology and training courses for improvement of creativity and competence in innovations development, presentation and promotion (IDP). 3. Establishing system of training for trainers and Life Long Learning (LLL) and retraining in the field of innovation policy development in partner countries.	15/10/2013	14/10/2015	European Union	Grant					100 000									100 000
European Neighbourhood Policy Law and Good Governance	To support development of Partner Countries (PC) by better tuning of Higher Education with the socio-economic priorities of Russia, Ukraine and Moldova, by developing new programs with better use of opportunities provided by the cooperation with EU in general and through the European Neighbourhood Policy and Eastern Partnership, in particular. To support the High Education reforms in PC in convergence with EU developments deriving from Strategic framework for European cooperation in education and training (ET 2020) and EUROPE 2020 Strategy for smart, sustainable and inclusive growth, and with Bologna process, thus contributing to the realization of the European Educational Area. To enhance human resources, institutional and material capacity of Partner Countries' Universities (PCUs) for applying coordinated approach in meeting the challenges the trends of European Higher Education reforms. To enhance building up the capacity of PCUs for international cooperation and permanent modernisation, including networking between Higher Education institutions and research institutes of PC and EU countries	Taking into account the circumstances in PC we have put forward the following specific objectives of the project: To develop a curriculum of Master Studies in European Neighbourhood Law and Good Governance, with ECTS and degree recognition. To build up syllabuses of courses, including also teaching methodology, students' obligations and relevant literature. To introduce modern teaching methodology (including computer aided teaching methods) based on research and active engagement of students. To train and educate academics and administrative who will be able to realise the project. To realise mobility flows of teachers and students as the beginning of institutional cooperation. To realise the delivery of modern literature and organisation of EUNEG libraries as a nucleus of the EU-PC information point. To purchase the electronic equipment/establish the study labs at the PCU. To create at PCUs the structure that will be able to realise the exploitation and sustainability of the project's results	15/10/2012	14/10/2015	European Union	Grant				12 856		9 640								22 496

LIVING ORGAN DONATION IN EUROPE	To exchange best practise and effective organisational models to promote and safeguard living donation in Europe.	The project on living organ donation in Europe is a coordination action that aims to 1) establish an inventory of living donation practices in Europe, 2) explore and promote living donation as a way to increase organ availability and 3) develop tools that improve the quality and safety of living organ donations in Europe. This action aims to achieve broad European coverage with a specific focus on new EU Member States. 11 partners from 10 different countries are involved. It draws upon the support, knowledge and network of the European platform on Ethical, Legal and Psychosocial Aspects of Organ Transplantation (ELPAT) and the European Society for Organ Transplantation (ESOT). To fulfil this objective, this project contains 2 scientific research packages. The first package focuses on living unrelated donation practices in Europe. The second package focuses on legal restrictions and safeguards for living donations in Europe. The remaining three work packages ensure the coordination of this work, dissemination of the project results and the organisation of meetings. 13 deliverables will result from this project, including an implementation plan to guarantee European-level dissemination of the accumulated knowledge, information and recommendations. By doing so, the end-goal is to exchange best practise and effective organisational models to promote and safeguard living donation in Europe.	01/04/2010	28/09/2012	European Union	Grant		50 595											50 595

TB Regional EECA Project (TB-REP) on Strengthening Health Systems for Effective TB and DR-TB Control (QMZT-PAS)	Objectives: To increase political commitment to TB and M/XDR-TB control through regional cooperation and evidence sharing for better governance of national TB programs; To develop and disseminate evidence on effective TB services delivery systems for implementation of patient-centred approaches and innovative models of care; To ensure sustainable financing of TB control and efficient funds allocation mechanisms.	The overall goal of TB-REP is to improve TB and DR-TB outcomes in the targeted EECA countries through a health systems strengthening approach that leads to the wide adoption of patient centred approaches for the provision of TB and DR-TB prevention, treatment, and care services. The underlying concept is that a regional initiative is urgently needed to further boost political commitment to fundamental transformation of health system delivery and financing at national level, capitalizing on the best practices and a visible need and demand for reforms. TB-REP is proposed as a time limited initiative covering innovative and sustainable activities with tangible outputs. It will push forward the agenda for a more drastic health system reform for M/XDR-TB control and financial sustainability of the externally funded activities through domestic funding. This will centre on aligning financial reforms with transformation of service delivery supported at national level by quality technical support and high level advocacy addressing inter-sector and governance aspects of TB control and facilitate the links of all of these.	01/01/2016		The Global Fund to Fight AIDS, Tuberculosis and Malaria	Grant															906 505,53	906 505,53

HEALTHY GENERATION (FRIENDLY HEALTH SERVICES FOR MOLDOVA'S YOUTH)	Phase I: To improve the sexual and reproductive health of young men and women in Moldova (particularly those vulnerable and most at risk) through increasing the demand, access to and utilization of quality youth friendly services and health related education programmes. Phase II: The overall goal of this phase will be to achieve that young men and women in Moldova (particularly those vulnerable and most at risk) adopt safer behaviours and seek assistance from health services when needed.	Phaza I: 1. The youth friendly health services are scaled up geographically to 16 districts, diversified and functional, and provide young men and women across the country with quality health assistance and counseling. 2. Young couples and adolescent mothers in 4 pilot districts are informed / trained on topics related to pre-conception and ante-natal education.3. Schools in 16 districts, in collaboration and with the support of the YFHS, develop young people's life skills, with special focus on health and responsible parenthood, and promote health service seeking behavior.4. Community stakeholders (parents, local administration, social, health and education sector professionals, and other community members) in 16 districts have a positive attitude towards YFHS and life skills development programmes, and are supportive of health service seeking behavior among young people. Faza II: Outcome I: Young men and women have equitable access to quality health services. Outcome II: The promotion of adolescent and youth health and the identification and referral of young people to YFHS is improved, through a stronger engagement of relevant stakeholders, at national and local level, in inter-sectorial cooperation. Outcome III: Young men and women adopt safer and healthier behaviors and seek necessary medical assistance, through a greater encouragement from community stakeholders	01/06/2011	31/10/2018	Switzerland	Grant			731 571	709 972		3 940 498,88								5 382 041,88

Improving national demographic policies in the Republic of Moldova	The project aims to improve national demographic policies especially by taking into account regional and global best practice. In order to achieve this goal, we set the following objectives: Providing international high-level technical advice to the Government of the Republic of Moldova in strengthening population and development policies and shifting them to a new paradigm in alignment with global experience and practices. Strengthening capacity of the CSOs Active Ageing Network in advocating for elderly rights in response to the population dynamics. Support the Government of the Republic of Moldova in reviewing and development of new priorities and action plans on population and development, including ageing.	To ensure that public policy in the field of demography and population are evidence-based and follow EU recommendation s, based on the Action Plan for implementation of the EU Association Agreement, national counterparts needs to develop their skills and knowledge on demographic forecast and how to involve policy makers, civil society and researchers in elaboration of public policies in response to the population challenges, including from an economic perspective. The project's target group is policy makers and research sector, which are directly linked with elaboration and implementation of the evidence-based public policy in the field of demography.	22/09/2015		United Nations	Grant							36 128							36 128

Enhanced capacity of national institutions to undertake the Population and Housing census	The overall objective is to assist National Bureau of Statistics to improve capacity to generate a reliable and comparable demographic, social and economic numeric profile of Moldova according to International Standards for Census Activities.	This project proposal aims at ensuring such a complex and important exercise is done according to international standards in three critical areas of intervention: communication, to ensure maximum participation of citizens; enumeration, to make sure that enumerators have the necessary skills and knowledge; and validation, through the conduct of a Post-Enumeration Survey. The project has been developed through an extensive process of consultation with the National Bureau of Statistics and complements the existing national census workplan. As the lead UN agency on support for census, UNFPA has over the last year facilitated technical assistance and advice to develop the workplan and to provide international expertise and feedback on progress through the International Technical Advisory Board (ITAB). The project is consistent with recommendations from the ITAB, as well it is coherent with other support mobilized by UNFPA from other donors. UNFPA will implement the project interventions through a mix of strategies - thereby ensuring likelihood of success, reduction of risks and longer term sustainability - and will employ corporate programme monitoring and financial accountability processes and tools. Existing and project-based staff will be used to manage and implement the interventions which will take place over a 9 month period. The total budget requested is USD 869,540.40.	01/01/2014	31/12/2015	Switzerland	Grant						630 512,94	252 757,97						883 270,91
Support Regional Course on evidence based SRH Clinical Guidelines development for EECA countries	Supporting the Russian speaking countries of the EECA region in the development and implementation of clinical guidelines.	UNFPA COs, policymakers and national partners are provided with evidence and tools for formulation of rights-based policies for integrated SRH services.	01/01/2016	31/12/2016	United Nations	Grant								59 118,68					59 118,68
Eastern Partnership Covenant of Mayors East II	The overall objective of the proposed project CoMO-East II (the Project) is to continue support and encourage CoM signatories in the EaP region to achieve and implement a more sustainable local energy policy, reducing their dependency on fossil fuels, improving security of their energy supply, and allowing them to contribute more actively to climate change mitigation.		26/05/2016	27/05/2018	European Union	Grant								714 100					714 100

LEARNING TO BE HEALTHIER TOMORROW: WATER AND SANITATION IN FLORESTI SCHOOLS	The project seeks to improve the health and hygiene practices and understanding of students, and through them to the wider community.	The project will: • Provide private sanitary indoor toilets and sinks for boys and girls in 5 Floresti schools;• Install reverse osmosis water filtration systems in the five schools;• Facilitate workshops and seminars (4 total) on women's health, nutrition and hygiene.	20/07/2012	20/07/2013	United States	Grant			122 355,41										122 355,41
TECHNICAL ASSISTANCE FOR THE IMPLEMENTATION OF SECTOR POLICY SUPPORT PROGRAMME IN THE WATER SECTOR (TA WATER SPSP)	The overall objective of the Water SPSP is to support Moldova in the implementation of reforms in its drinking water and sanitation sector, by providing finance, technical assistance and policy dialogue for priority activities of high relevance for the Moldovan population and environment.	The specific objectives of the project are as follows: • Provide support to the updating of Moldova's WSS sector policy and the legal framework to implement sector policy;• Provide support to the institutional reform of the WSS sector at central and local levels;• Provide support to financial planning and coordination in the WSS sector;• Provide support to WSS sector management and strategy updating;• Provide administrative support to the Steering Committee of the Water SPSP. • Provide capacity building activities	15/09/2011	14/03/2013	European Union	Grant			2 771 010										2 771 010
MOLDOVA WATER UTILITIES PROGRAMME – FINANCIAL AND OPERATIONAL PERFORMANCE IMPROVEMENT PROGRAMME (FOPIP);	The overall objective is to promote reform of the Utilities, creating models of self sustainable operators providing services to acceptable standards. The Utilities are supported to expand their services beyond the municipal boundaries in order to ensure efficiency of investment and operation costs with affordable tariffs. A key element is the "Service Agreement" that is concluded between each Municipality and the Utility providing water and wastewater services, in each of the six regions.	The specific objectives of this assignment are to assist the Utilities to identify and implement the necessary corporate, financial, operational and corporate governance improvements to meet the related covenants included in the EBRD financing agreements. This will be achieved via the development and implementation of the Financial and Operational Performance Improvement Programme, including a long-term business plan. After an initial (diagnostic) assessment, the Consultant shall discuss with the Utilities actual priorities and focus on development of detailed recommendations for the identified priorities and achieving specific results that will be delivered in the area.	25/10/2011	29/08/2013	European Bank for Reconstruction and Development	Grant			524 955										524 955

Improving the ecological situation of basins of Prut and Dniester by improving sewage treatment systems in Chernivtsi and Drochia	Improvement of the ecological situation in the transboundary basins of the rivers Prut and Dniester by the introduction of innovative approaches of wastewater treatment and upgrading of wastewater management in Chernivtsi and Drochia		19/12/2013	18/10/2015	European Union	Grant					328 425		268 383						596 808
Continuous improvement strategy for increasing the efficiency of wastewaters treatment facilities in the Black Sea coastal states.	Overall objective is to achieve stronger regional partnership and cooperation to realize significant improvements of the wastewater treatment facilities management in the Black Sea coastal states	Specific objectives 1. Cooperation between Black Sea (BS) partner regions to improve the management of the wastewater treatment facilities; 2. Increase the performance of wastewater treatment facilities through a new continuous improvement strategy (CIS) model development; 3. Acquisition of desired competences for the personnel involved in BS wastewater management; 4. Enable WWTF managers and BS regions decision makers to manage more effectively and respond to trends more quickly; 5. Coordination of the technical, administrative and financial activities of the project.	02/01/2014	31/12/2015	European Union	Grant						20 900							20 900
Access to Quality Water in Hincesti District - Republic of Moldova	Improved access to qualitative water in 4 villages from Hincesti district.		01/01/2015	31/12/2015	Slovakia	Grant						109 346							109 346
Establishing safe wastewater disposal in the town of Cantemir - Moldova	The overall objective of the project is to establish a safe wastewater disposal system for the Municipality of Cantemir (Step 1). During the currently contracted Phase 1 the technical design and the procurement (tender) documents and all other relevant documents for the wastewater collection and treatment system shall be prepared.	The specific purposes of the overall project (Phase 1 and 2) are: The rehabilitation of the existing sewer system in the center of Cantemir and the extension of the sewer network to cover the area to the east of the center of Cantemir and a settlement in the west of the center which have been connected to the new water supply system. The construction of a wastewater treatment plant for the town of Cantemir south of the city center. The design of the WWTP will allow a future extension for the treatment of wastewater from neighboring villages. Optimization of the existing water supply system in Cantemir, especially the raw water pumping station. With the development and implementation of proper measures the water supply system shall become more efficient and the sustainability shall be increased. In order to ensure proper operation and maintenance as well as financial sustainability after the enlargement of the scope of services to wastewater treatment, capacity development and technical training in operation and maintenance for APA Canal Cantemir shall be carried out.	01/07/2015	31/01/2016	Austria	Grant							398 360						398 360

SUPPORT IN IMPLEMENTATION OF PUBLIC SERVICES MODERNIZATION REFORM	The objective of this assignment is to design, test and launch implementation of a public service delivery approach that improves accessibility of services to citizens, business and non-for-profit organizations and reduces administrative burden on them. In achieving the above general objective, the project has to closely coordinate with work on-going under the e-government initiative implemented across public administration in Moldova. It also has to closely coordinate with other PAR and PFM undertakings – particularly those related to inter-institutional and inter-governmental relations.	1) Undertake analysis of existing public services, their delivery mechanisms and practices across CPAAs;2) Where necessary, assist the State Chancellery to organize consultations with key stakeholders at central, local and civil society level as to the proposed Concept;3) Following the process of consultations / approval in the Government, assist the State Chancellery to prepare a medium term plan covering practical steps for rolling out the horizontal reforms needed for implementation of the agreed service delivery model (Concept);4) Early in project implementation stage carry out an opinion poll to establish a baseline view on public perception of service delivery;5) Assist the State Chancellery to review existing legislation / regulatory basis and prepare necessary normative base (framework legislation) for implementation of public service modernization model (Concept);6) Prepare a capacity development plan for the institution designated as the lead on service delivery modernization in the approved Concept (State Chancellery). Provide initial training on service delivery to selected staff and provide day-to-day coaching;7) Select, review and propose re-engineering model and implementation plan for 3 public services (pilots) in line with the above-proposed service delivery model (Concept);8) Based on the agreed concept of service delivery and results of the pilots, prepare the Methodology (handbook) for Service Review and Reengineering to be used in the future by institutions undertaking service modernization;9) To ensure sustainability of the approach, provide training and capacity building for approximately 50 staff responsible for promotion and further implementation of the service delivery reform agenda.	01/03/2013	30/12/2013	World Bank	Grant						636 836											636 836

MOLDOVA AID EFFECTIVENESS PROJECT	Support the implementation of Moldova's National Development Strategy and sector development programs as well as cross-cutting programs by improving the effectiveness of aid through Improved ownership, alignment, harmonization, management for results and mutual accountability.	The Project will seek to improve aid management practices by employing a three-pronged approach:(1) Improving implementation of PPIP through effective monitoring and follow-up, assisting the State Chancellery in reviewing and updating the actions and targets in the implementation plan, setting up a monitoring system for the updated set of actions and indicators, and reporting on the progress on achieving the targets until the process is fully taken over by the National Coordination Unit (NCU);(2) Improving aid effectiveness at sector and program level through promotion of programmatic approaches. The NCU will also be supported in communicating and promoting the concept of program, including sector approaches and in developing guidelines for sector approaches, as well as providing training related to sector approaches. The support will be provided to the NCU in developing guidelines for mapping of aid at sector level and for developing sector aid management improvement plans. Similarly, the NCU will be supported in assisting sectors in developing sector communication strategies where policies, strategies, achievements as well as challenges are communicated both to the general population and to a narrow group of professionals. This support will also include support to the NCU with the selection of Lead donors and support to the sector councils in general.(3) Improving accountability through better aid information and communication towards relevant stakeholders and general public. The updating of the existing aid information system to the best international standards will be supported, based on a thorough need assessment. The updated system is expected to provide for online data entry, enhanced capacity for storing information and undertaking analytical searches. It will include capacities for handling disbursement data on a quarterly basis, capacities for monitoring functions and for handling of information about the national investment programs.	01/03/2012	30/12/2013	United Nations	Grant				160 391,27										160 391,27

Fostering local state-civic partnerships for sustainable economic development in Moldova.	To strengthen the local capacities in Moldova in improving employability and entrepreneurship among local population, in particular women and counteraction brain and skill drain.	The overall objective of the action is to promote human rights, advancing the role of civil society and promoting sustainable economic development in the Republic of Moldova. The project shall work to build the capacity of the civil society and public bodies, strengthening women's rights and addressing brain drain through transfer of knowledge and skills for socio-economic development of the country and its advancement in the region. The action shall support the Government to encourage the temporary/permanent return of Moldovan graduates from foreign universities by integrating them into the labour market. The action will ensure wide outreach to the target group through production and distribution of promoting materials, as well as creation of a data base of applicants. The support packages will facilitate the social and economic (re)integration of young graduates. The wrap-up evaluation report will bring recommendations put forward to policy makers for follow up public policy development and programming.	01/07/2014	31/05/2015	United Nations	Grant						250 896,06							250 896,06

Asylum Systems Quality Initiative in Eastern Europe and South Caucasus	ROMANIAN: Obiectivul general este de a promova protectia refugiatilor si solicitantilor de azil in Europa de Est si Caucazul de Sud, in conformitate cu standardele internationale si europene. Obiectivul specific este acela de a imbunatati, printr-o abordare regionala, calitatea determinarii statutului de refugiat. Aceste obiective sprijina direct obiectivele diferitelor procese legate de migratie si azil cu relevanta pentru Uniunea Europeana si tarile vizate: In primul rând, procesul de la Praga, lansat la o conferinta ministeriala in 2009, promoveaza parteneriatele privind migratia intre statele participante ale Uniunii Europene, precum si in tarile tinta si alte state. Statele participante au semnat o declaratie comuna privind parteneriatele in domeniul migratiei. In luna noiembrie 2011, un plan de actiuni „Procesul de la Praga a fost adoptat in scopul de a traduce aceasta declaratie in actiuni concrete. Obiectivele acestui proiect corespund actiunilor specifice 1-3 din Capitolul VI - Consolidarea capacitatilor in materie de azil si de protectie internationala ale Planului de actiuni „Procesul de la Praga 2012-2016", printre care: 1. In colaborare cu UNHCR, pentru a asista partile in dezvoltarea si consolidarea sistemelor lor de azil, inclusiv a legislatiei nationale in materie de azil, pentru a asigura conformitatea cu standardele internationale. 2. Pentru a sprijini autoritatile de azil ale partilor in: a) consolidarea capacitatilor de receptie pentru persoanele care au nevoie de protectie internationala, b) consolidarea capacitatilor lor in colectarea si analiza informatiilor privind tarile de origine a solicitantilor de azil, in contextul consolidarii globale a sistemelor de azil. 3. Pentru a promova dezvoltarea programelor de instruire pentru institutiile de forta si a sistemului judiciar pe standardele internationale de protectie si pe principiul nereturnarii. In al doilea rând, Programul de la Stockholm, adoptat in cadrul Consiliului Europei din 4 decembrie 2009, subliniaza importanta angajamentului UE cu tarile terte in domeniul azilului si migratiei, inclusiv prin consolidarea capacitatilor si alte forme de sprijin. In al	01/02/2013	30/06/2015	United Nations	Grant						203 835,11										203 835,11

	<p>treilea rând, Oficiul, European de Sprijin pentru Azil (EASO), care a devenit pe deplin funcțional în iunie 2011, are sarcina de a consolida Uniunea Europeană (UE), cooperarea între țări în materie de azil, pentru a sprijini țările UE ale caror sisteme de azil sunt suprasolicitate și pentru a spori punerea în aplicare a sistemului european comun de azil (SECA). Dimensiunea externă este o parte importantă a activității EASO.</p> <p>Abordarea globală a migrației oferă cadrul pentru o dimensiune externă a unei politici comune în materie de azil și de cooperare cu țările de origine, de tranzit și întoarcere bazată pe o cooperare cu UNHCR și Comisia Europeană. Activitatea EASO privind dimensiunea externă va viza cel puțin următoarele domenii: - Promovarea și sprijinirea consolidării capacităților sistemelor de recepție și azil în țările terțe. - Protecția în regiune, implementarea programelor de protecție regională (RPP), împreună cu Comisia Europeană, UNHCR și alți parteneri din domeniu. Pentru 2012, activitățile EASO în cadrul dimensiunii externe sunt limitate la elaborarea unui plan de lucru, cu toate acestea, pentru perioada de implementare a acestui proiect (2013-2014), EASO s-a angajat să fie un asociat în cadrul proiectului. Acest lucru va asigura aplicarea de standarde și metodologii relevante pentru activități incluse în acțiune. În al patrulea rând, Platforma Parteneriatului Estic pentru Democratie, bună guvernare și stabilitate, prin intermediul Grupului pentru Migrație și Azil, își propune să consolideze sistemele de azil și migrație în conformitate cu cele mai bune practici. În conformitate cu obiectivele stabilite de Parteneriatul Estic, în fața sa de parcurs recent lansată, până în toamna anului 2013, în legislația de azil, sunt introduse structurile și procedurile administrative nou create, asigurând o protecție eficientă. Aceste îmbunătățiri ar trebui să fie realizate printr-un dialog pe aceste probleme între partenerii estici și UE, precum și între partenerii estici ca atare. În al cincilea rând, dialogul la nivel înalt UE-Rusia în materie de azil și migrație la sesiunea de la Moscova din decembrie 2011 a prezentat cooperarea între UNHCR și</p>

	<p>EASO, si, printre altele, a subliniat importanta Curriculumului European de Azil (EAC) ca un potential mijloc de realizare a schimbului de experienta. The overall objective is to promote the protection of refugees and asylum seekers in Eastern Europe and the South Caucasus, in line with international and European standards.</p> <p>ENGLISH: The specific objective is to improve, through a regional approach, the quality of refugee status. These objectives directly support the goals of various asylum and migration-related processes of relevance to the European Union and the target countries: First, the Prague Process, launched at a Ministerial Conference in 2009, promotes migration partnerships among the participating states of the European Union, as well as the target countries and other states. Participating states endorsed a joint declaration on "Building Migration Partnerships." In November 2011, a "Prague Process Action Plan" was adopted in order to translate this declaration into concrete action. The objectives of this Project correspond to the specific actions 1-3 of Chapter VI - "Strengthening capacities in the area of asylum and international protection" of the Prague Process Action Plan 2012-2016, including: 1. In collaboration with UNHCR, to assist the Parties in developing and strengthening their asylum systems, including national asylum legislation, to ensure compliance with international standards. 2. To support asylum authorities of the Parties in: 1. strengthening reception capacities for people in need of international protection, 2. strengthening their capacities in gathering and analysing information on asylum seekers' countries of origin in the context of the overall strengthening of asylum systems 3. To promote the development of training programmes for law enforcement bodies and the judiciary on international protection standards and on the principle of non-refoulement [emphasis added]. Second, the Stockholm Programme, adopted at the European Council of 4 December 2009, underlines the importance of the EU's engagement with third countries in the area of asylum and migration, including through capacity-building</p>

	<p>and other forms of support. Third, European Asylum Support Office (EASO), which became fully functional in June 2011, is tasked to strengthen European Union (EU) countries' practical cooperation on asylum, to support EU countries whose asylum and reception systems are under particular pressure and to enhance the implementation of the Common European Asylum System (CEAS). The external dimension is an important part of the work of EASO. The Global Approach to Migration provides the framework for the external dimension of a common asylum policy and for cooperation with regions of origin, transit and return in cooperation with UNHCR and the European Commission. EASO's work concerning the External Dimension will concern at least the following areas:</p> <ul style="list-style-type: none"> - Promoting and assisting capacity building in third countries' own asylum and reception systems. - Protection in the region; implementing Regional Protection Programs (RPP's), together with the European Commission, UNHCR and other partners in the field (emphasis added). For 2012, EASO's activities under the external dimension are limited to the development of a work plan; however, for the period of implementation of this project (2013-2014), EASO has committed to being an associate in the project. This will ensure application of their standards and methodology for relevant activities included in the Action. <p>Fourth, the Eastern Partnership's Platform on Democracy, Good Governance and Stability, through the Panel on Migration and Asylum, aims to strengthen asylum and migration systems in line with best practice. According to the goals set forth by the Eastern Partnership in its recently released roadmap, by autumn 2013, in asylum matters, legislation would have been introduced and administrative structures and procedures set up, ensuring effective protection. Such improvements should be achieved through a dialogue on such issues between the Eastern partners and the EU, as well as between Eastern partners themselves. Fifth, the EU-Russia High Level Dialogue on</p>

Towards a society for all: UN Country Team Strategic Action Supporting Convention on the Rights of Persons with Disabilities Implementation	The project derives from the consultations with the de facto authorities in the Transnistria region and the development objectives and local needs related to enhancing the disability infrastructure. The interventions under the project will bridge the gap in terms of ensuring capacities and resources to addresses challenges in implementing the strategic vision on implementing the human rights of persons with disabilities as envisaged under the Strategic Action Plan developed by the de facto Transnistrian authorities in response to the Hammarberg's recommendation s. The activities under the project align with the priority needs for support identified by the Senior Expert, Thomas Hammarberg and take note of newly opened opportunities around promoting implementation of the rights of adult men and women and children with disabilities.	Men and women with disabilities (rights-holders), including the most marginalized people with psychosocial and intellectual disabilities, have increased realization of human rights as laid down in the UN Convention on the Rights of Persons with Disabilities and other international instruments. De facto local and central authorities (duty-bearers) have strengthened responsibility towards implementing human rights of persons with disabilities and deliver in conformity with their obligations under the UN Convention on the Rights of Persons with Disabilities.	25/02/2015	30/09/2015	Netherlands	Grant						35 915,38							35 915,38

Support to the Moldovan Criminal Justice Sector	The objective of the proposed program is to support continued development of the criminal justice system in Moldova through a capable, strategic Prosecution System (PS), an improved legislative framework to combat crime and corruption while respecting human rights and access to justice, and ensured equality of arms through improved professional standards and capacity for lawyers serving defendants.	ABA ROLI will approach the above goal through four objectives. First, ABA ROLI will work to support reform and capacity building within the Prosecutor General Office and the Superior Council of Prosecutors. ABA ROLI will do this through assisting in design, improvement, and implementation of new policies and regulations, strengthening the capacity of the Association of Prosecutors (AP), and trainings to improve the substantive capacity of members of the PS. ABA ROLI will also support criminal and criminal procedure law reform and help provide unified case-law and guidelines. Specifically, ABA ROLI will take part in working groups convened by the Ministry of Justice to review and amend the CC and CPC, delivering advisory opinions and commentaries to the MOJ, assist in reviewing any potential anti-corruption legislation, and review current penal policy. Additionally, ABA ROLI will continue to work with the SCJ and the PGO to unify sentencing guidelines and judicial practice. ABA ROLI will strengthen equality of arms through training sessions for lawyers to improve professional standards and improve their capacity to appropriately protect the rights of defendants. We will offer skills trainings to defense attorneys and legal interns; anti-corruption strategy trainings for judges, prosecutors, defense attorneys; and continued support to young legal professionals with training, professional development, and public lecture opportunities. Finally, ABA ROLI will support cross-sectoral capacity building to ensure sustainable justice sector reform, focusing on improving justice-sector transparency with the public and the media, cross-sector trainings to combat corruption, and cross-sector young professionals' development.	01/12/2016	25/01/2019	International NGO	Grant								401 284,11						401 284,11

European Moldova by Citizens Engagement	The long-term objective (Goal) is to improve critical awareness of the benefits of the pro-European integration benefits at community and grass-root level. The Goal is divided into the specific long-term objectives: 1) reaching out 65% of approval of pro-EUROPEAN integration (now stands at 35-40%), 2) create vibrant pro-EUROPEAN organizational non-political grass-root movement across the country (currently European idea is assimilated with the political parties). The short-term objectives are: to reach out and mobilize citizens at grass-root level in 8 rayons for the European integration and 2) to build resilience and responsiveness of the communities in favor of the European integration. More details in the full description of the project in Annex A.		27/03/2017	31/12/2017	United States	Grant								89 622,8					89 622,8
Enhancing Women's Political Representation through improved capacity and enhanced support in Moldova	Goal - Women lead and participate in decision making at all levels (national local and rayon) Outcome 1 Legal frameworks and policies to advance women's right to participate in decision making at national and local levels are reformed/adopted and/or implemented Outcome 2 Gender equality advocates influence legal frameworks and policies to increase women's leadership and political participation		01/07/2014	31/12/2017	Sweden	Grant						2 157 596,85							2 157 596,85
Technical support for the implementation of the 13 Penitentiary construction Project	1) Support the Project Impelmenting Unit in project implementation, at the initial stages; 2) Build PIU's capacity to enable the team to continue implementation independently; 3) Support the PIU in preparing project activities starting with construction works; 4) Help the PIU with construction supervision.		14/06/2014	30/06/2018	Council of Europe Development Bank	Grant					738 225,31								738 225,31
MODERNIZATION OF LOCAL PUBLIC SERVICES IN THE REPUBLIC OF MOLDOVA (PHASE II)	The framework conditions for a citizen-oriented implementation of the national policy for regional development in priority sectors for local public services are improved.	Improving local public services such as water supply and sewage, waste management, energy efficiency, contribution to implementation of the regional development policies.	01/01/2016		European Union, Germany, Romania, Sweden, Switzerland	Grant							11 116 762	3 700 000					14 816 762

European Union Border Assistance Mission to Moldova and Ukraine	The main objective of the Mission (EUBAM) is to monitor, evaluate and provide advice on border and customs control measures and procedures implemented by Moldova and Ukraine, including in particular actively contributing to the settlement of the Transnistrian conflict. Specific objectives: 1. To contribute to further improvement of border and customs cross-border and interagency cooperation between Moldova and Ukraine, including stronger links with other national and international stakeholders, in line with IBM strategies of both countries; 2. Further enhancement of operational capacities of the partner services in line with the Integrated Border Management principles, including robust internal good governance and anti-corruption measures; 3. Actively contribute to the settlement of the Transnistrian conflict through monitoring and reporting on developments at the border and technical support for the implementation and pro-active coordination of Confidence Building Measures; to engage in drafting, verification and rectification of Moldova's legal acts having an impact on the Transnistrian region; 4. To support the smooth implementation of border and customs related aspects of DCFTA in Ukraine and Moldova, including monitoring, technical advice and assistance to facilitate the external trade from the Transnistrian region; 5. To support the effective implementation of efficient veterinary, sanitary and phytosanitary import/export controls at border from partner services on both sides through advanced tools (risk analysis, proportion of e-systems, simplified procedures, etc.); 6. To monitor Visa Liberalisation implementation in Ukraine and post-visa liberalisation in Moldova; 7. To inform and provide timely advice to various types of initiatives (EaP IBM Panel, high level meetings with national partner services, etc.) and in the preparation of an exit strategy and transition for long-term sustainability.	EUBAM is providing best practices in integrated border management and in cross-border cooperation. While its initial focus is on the Moldova-Ukraine common border, structural improvements will also result in enhancing overall effectiveness of the partner services as far as other borders are concerned. The Mission's long term intervention and guidance on concrete measures of cross-border co-operation will have a positive effect also on other border regions which will take over best practices and cooperation methodologies from the Moldova-Ukraine state border that will serve as a positive model in the future. In line with the Stockholm programme "Delivering an area of freedom, security and justice for Europe's citizens" and the European Neighbourhood Policy "A new response to a changing Neighbourhood" EUBAM has placed a special focus on providing advice to the partner services in the area of good governance as well as engaging such important development agents as civil society, academia and media. EUBAM's activities are aimed to achieve sustainable development to the delivery of good quality border and customs services to the citizens and companies of Republic of Moldova and Ukraine to facilitate contacts and trade. The common goal is to develop a system of border and customs controls and border surveillance which meets European standards and serves the legitimate needs of the citizens of each country. There are some specific activities where Border Police / Border Guard and Customs Services reached a level which allows the partners to make these activities sustainable such as Joint Border Control Operations, Common Border Security Assessment Report, exchange of pre-arrival information, information exchange between Border Police / Border Guard. However remaining challenges are identified and require more dynamic progress such as further changes of service mentality including public relation and communication, consolidation of ethical values, prevention and fight against organized crime, further implementation of the national	01/12/2015	31/05/2018	European Union	Grant							253 573							253 573

		concept of Integrated Border Management, proper application of national trade policy etc. In accordance with the ongoing modernization plans of the partner agencies EUBAM will continue putting attention to the issue of both institutional and operational sustainable capacity building. Furthermore, EUBAM Phase 11 is designed to encourage sustainability and cost-effectiveness of its activities, as it approaches IBM systematically, based on national and EU priorities. In order to ensure longevity of the activities, special attention has been paid to the following elements: 1. National ownership: all engaged border management and law enforcement authorities, and civil society fully back the project, as a highly pertinent initiative tailored to regional realities. 2. Support to ongoing Government-led reforms: the action directly complements national measures in the Republic of Moldova and Ukraine related to IBM implementation plans, Association with the EU, Visa Liberalisation, DCFTA, etc. 3. Gaps analysis: EUBAM expert assessments and continuous consultations with national interlocutors were utilized to ensure the interventions are targeted towards the most relevant areas. 4. Institutionalization: introduction of new procedures and practices into internal bylaws and guidance of the partner services is an important aspect of the action. 5. Policy dialogue: cooperation and exchange of experience between EU and beneficiary States has been afforded special attention. 6. Donor coordination: mechanisms, which harmonize technical assistance in the area of migration, prevent duplication, and establish synergies between running programmes have been introduced.

REMITTANCES DEVELOPING MOLDOVAN COMMUNITIES	The proposed action will contribute to the Overall Objective of linking migration and development in Moldova and making use of positive effects of migration to develop Moldovan rural communities and mitigate migration. The focus of attention in development work in Moldova shall be directed to this link (migration AND development). It has to be strengthened and the use of remittances should be more focused to support business creation and prevent potential migration.	The Specific Objective of the proposed action shall increase the positive impact of remittances to Moldova through improved capacity of remittance recipients & local communities in 4 target regions of Central Moldova to generate income activities, develop businesses and invest in their rural communities. This is a two-aimed orientation on increasing the productive use of remittances for development and enhanced welfare, as well as strengthening the capacity building efforts of the country (the local community) for decreasing unemployment and migration prevention. This innovative and new approach to the topic "migration for development" presents the added value of this proposed action.	01/04/2011	29/11/2013	European Union	Grant					627 812								627 812

Regional project: FAMILY FIRST	The project will contribute to realization of the convention of the rights of the child in MD, BY and UA. All three countries have signed and ratified the Convention on the Rights of the Child and developed national action plans. Still, implementation of the action plans is lacking funds and momentum. The project will address governmental and non-governmental stakeholders and present various and innovative models of implementation of the CRC (alternative care, family strengthening, etc.)	Strengthening of the capacities of Non State actors and relevant authorities in MD, BY and UA to be able to implement the recommendations of the UN Commission on the rights of the child in each country. The proposed project will take place in Moldova, Belarus and Ukraine and is aiming at strengthening the capacities and enlarge the knowledge of the partners in the care of children being placed in institutions and in vulnerable families. Central element of the project will be the empowerment of the partner in education, protection and participation of children. The focus has to be placed on strengthening the family, and overcoming the vulnerability of families which has been increasing during the transition years. This will be achieved by means of exchange with other partners, training, knowledge management, competence development and adoption of innovative pedagogical methods. Thus, the members of the partner organization will be enabled to adapt their child projects according to the requirements of the Convention on the Rights of the Child, improve the impact of their work in child projects and become equal partners for state authorities in the field of child care and protection.	01/11/2012	31/12/2014	Austria	Grant				23 333									23 333

CULTURE Exchange Platform - CULTUR-EXP	The overall objective is to enable the cross-border exchange of culture by providing an innovative, multi-lingual IT platform, based on available open source social platform solutions and adapted for culture producers (artists, etc.), culture operators (museums, festivals, etc.) and other actors of the culture market. The platform will be an online tool, where all entities related to the culture will be able to advertise, discuss and organize cultural assets and events in the region. The platform will also be an important source of information about the culture and related cultural events (artists, operators, events) for the culture consumers.	There are three specific objectives: 1. To provide the platform with the following functionalities: User presentation module - will be used to create and store platform users' own profile, the user presentation module will be able to support: - Artists: allow digitized samples of own art, express interest in types and geographical locations of performance events, interest in particular arts or culture areas. - Culture infrastructure owners: inventory of performance sites operated and available to artists, timetable of the events and availability. - Culture operators: description of activities, schedule of planned events. Event scheduler - a sort of thematic calendar, where platform participants will be able to locate and advertise their events. Culture browser - this module will provide a catalogue and search facility for any type of content on the platform. It will be tailor-made to enable searching the content (e.g. events) by art, region, operator, artist, etc. It is assumed that there will be a possibility to interface with 3rd party systems to provide the schedule other important 3rd party events. Collaborative tools - the popular collaboration tools (videoconference, chat) will be integrated so the platform users will be able to work online for preparation of common events. Announcement boards - a functionality allowing for posting messages, announcements related to culture. Thematic discussion/reflect ion spaces - where users from different areas, cultures may freely participate and express their opinions on events, art, tradition. 2. To provide rich content on the platform - by attracting, encouraging and training culture providers to advertise on the platform, and (for some participants) - to provide own cultural content. 3. To ensure the uptake of the platform by the users - by disseminating, advertising, training activities.	01/07/2013	30/06/2015	European Union	Grant					12 786,63	23 864,55													36 651,18

STRENGTHENING THE EFFECTIVENESS OF THE SOCIAL SAFETY NET	Project Development Objective is to improve the efficiency and equity of Moldova's social safety net through a fiscally sustainable expansion and strengthening of the Ajutor Social Program.	The project consist of two inter-related components. The first component would co-finance a share of the Ajutor Social and the targeted Heating Allowance benefits, as these programs scale up and as other categorical programs are consolidated and downsized. In this component, disbursements would be triggered by achievement of specific results (as discussed in more detail below). The second component would finance investments in the basic architecture of the social safety net, with a focus on strengthening the Ajutor Social Program, following standard World Bank procedures for investment lending. The two components are inherently linked through definition of the results framework. Specifically, technical and systems improvements supported by Component 2 contribute to the achievement of results that would trigger disbursements under Component 1.	30/06/2011	29/06/2016	World Bank	Soft Loan			28 724 477,91										28 724 477,91
Strengthening qualification of persons providing social protection services to children and youth in Moldova	To strengthen qualification and specialized knowledge and skills of persons providing child social protection services in Moldova and the transfer of experience and knowledge in the area of raising and educating children.	The specific objective of the project will address to solve the above described complex problem through strengthening qualification and specialized knowledge and skills of persons providing child social protection services in Moldova and the transfer of experience and knowledge in the area of raising and educating children. The specific objective can be achieved only by evaluating the current situation at all levels: governmental, foster parents, children and considered directly to the needs of the key-actors involved in the system: Family-Type Children's Home (CCTF), Foster Care Assistant (APP) and Specialist-coordinators from the Territorial Structures of Social Assistance. This objective could not be achieved without the support of the MLSPF and international experience which will be crucial for development of Curricula and Course Support for professionals from social protection services and provision of specialized training to all professionals involved or potentially involved in the area of foster care.	01/10/2014	30/06/2016	Czech Republic	Grant						16 105,43	19 924,87						36 030,29

TRACECA Maritime Safety and Security II	The overall objective of the project is to support the further ratification and implementation of international maritime safety and security conventions as well as improving the level of quality and coordination of maritime administrations in the Black Sea and Caspian Sea partner countries with the overall objective of making shipping safer, more secure and environment friendly.	(1) Strengthening the regional coordination between the EU and beneficiary countries, and the countries themselves, in the framework of maritime safety and security. (2) Monitoring of the flag performance and provision of dedicated assistance to maritime administrations to overcome the impediments identified by the Voluntary IMO Member State Audit Scheme (VIMSAS); reinforcement of port State control capacity both in terms of procedures and training of port State control officers. (3) Enhancing the regional cooperation in the field of vessel traffic monitoring and reporting in order to improve maritime safety and to reduce maritime pollution. (4) Reduction of illegal waste disposal, pollution and emissions related to maritime transport. (5) Increasing the qualifications of maritime personnel. (6) Maintain a secure shipping environment by i.a. proper implementation of the International Ship and Port Facility Security (ISPS) Regulations. (7) Proper dissemination of the project results.	16/01/2014	16/01/2016	European Union	Grant						1 150 000							1 150 000
Customs Container Control Program conducted according to international standards of safety and security	The purpose of this MOU is to provide a framework of cooperation and understanding, and to facilitate collaboration between the Parties to further their shared goals and objectives in regard to the Container Control Programme (CCP). The objectives of this MOU will be achieved through: Regular dialogue meetings between UNODC, CSR and BPRM; Execution of a separate legal instrument between the Parties to define and implement any subsequent projects, programmes, and activities pursuant to Article 1.2.		03/02/2015	30/12/2020	United Nations	Grant						109 000							109 000
Safety Information Systems in Road traffic	Establishing a cross-border partnership in order to identify common solutions for an increased and optimized infrastructure of road traffic singling according to EU standards.	Development of a continuous cross-border cooperation between Ungheni (Moldova) and Dorohoi (Romania), as well as their cooperation by introducing an innovative structure and new instruments in road traffic system; A better control of roads' traffic by introducing monitoring systems in traffic. The development of joint plans as a common ground for developing national and cross-border strategies in road traffic system management.	24/12/2013	24/06/2015	European Union	Grant					308 350,01	293 965,79							602 315,8

WORLD BANK TRUST FUND ENERGY SECTOR REFORM AND EFFICIENCY IMPROVEMENT S		Trust fund will finance1. Rehabilitation of the heating engineering system of the Center for Mother and Child2. Technical study to identify urgent priority rehabilitation and investments in Chisinau district heating system3. Technical study on long-term system optimization and investments strategy for energy supply in Chisinau4. World bank supervision of 1-3.	10/12/2010	09/12/2012	Sweden	Soft Loan		2 083 062											2 083 062
AGREEMENT BETWEEN GOVERNMENT OF REPUBLIC OF MOLDOVA AND ROMANIA REGARDING TECHNICAL ASSISTANCE OF 100 MLN EUR NON-REFUNDABLE AMOUNT			15/08/2010	15/08/2015	Romania	Grant		6 000 000											6 000 000
SUPPORT TO REFORM OF THE ENERGY SECTOR	The overall objective of the Sector Policy Support Programme (SPSP) "Support to Reform of the Energy Sector", of which this contract will be a part is to support the Government of Moldova in the implementation of reforms in its energy sector with a particular focus on supply security, energy efficiency and renewable energy, by providing finance, technical assistance and policy dialogue for priority activities of high relevance for the Moldovan population and development of the energy sector. In the context of implementation of the SPSP "Support to Reform of the Energy Sector" (SPSP Energy), the Contractor will provide advice on the fulfilment of the targets and indicators concerning the reform of the energy sector, as identified in the Policy Matrix attached to the Financing Agreement between the Government of Moldova and the EU.	• Provide support to the updating of Moldova's policy documents on energy and the legal/regulatory framework to implement the sector policy. • Provide support to the institutional reform of the energy sector with a particular focus on energy efficiency and renewable energy; • Provide support to the promotion of research and development of renewable energy potential in the Republic of Moldova; • Provide support to the raising awareness and dissemination of best practices on energy efficiency and renewable energy; • Provide support to financial planning and coordination in the energy sector; • Provide administrative support to the Steering Committee of the SPSP "Support to Reform of the Energy Sector"; • Provide capacity building activities	05/06/2012	03/12/2015	European Union	Grant			2 600 000										2 600 000
CAPACITY BUILDING TO THE MINISTRY OF ECONOMY IN THE AREA OF ENERGY EFFICIENCY AND RENEWABLE ENERGY IN MOLDOVA	Consolidarea cadrului legal si institutional pentru aplicarea masurilor de atingere a scopului de crestere a eficientei energetice si resurselor regenerabile de energie, contribuind la sustenabilitatea consumului si balantei energetice.		01/07/2011	29/12/2015	Sweden	Grant			2 425 500										2 425 500
District Heating Efficiency Improvement Project	Objectives and policy dialogue incorporated had relevance to all three pillars of the CPS: improving energy efficiency and heating in schools and hospitals and improving the security and safety of electricity transmission.		14/08/2015	30/06/2020	World Bank	Soft Loan						38 283 391,62							38 283 391,62
SECTOR POLICY SUPPORT PROGRAMME TO REFORM OF THE ENERGY SECTOR	To support the reform of the energy sector and to facilitate technical improvements in its operation.	This Sector Policy Support Programme (SPSP) aims at helping Moldova to achieve the objectives of the Energy Strategy, approved through Government Decision of 2007.	06/12/2011	05/12/2015	European Union	Grant			40 000 000			10 000 000							50 000 000

Moldova Energy and Biomass Project Phase II	Enhance successful activities and expand them to regions that have been insufficiently involved or not yet, especially Transnistria, Gagauzia and Taraclia, and to support the further strengthening of the biomass market.	The purpose of the Project is to significantly increase the use of renewable energy technology, in particular through energy efficiency and substitution of fuels. This will directly contribute to improving heating conditions in rural public buildings, including schools and community centers, by using available straw waste provided by local agricultural enterprises.	23/12/2014	22/11/2017	European Union	Grant							2 230 433	4 601 963	2 368 855				9 201 251
Grant Agreement between JICA and the GRM for the project for effective use of biomass fuel	Obiectivele proiectului vor contribui la: i) reducerea costurilor de energie, ii) dezvoltarea sistemelor de incalzire durabila si iii) imbunatatirea conditiilor de trai in comunitatile rurale ale Republicii Moldova.		26/06/2013	31/03/2017	Japan	Grant					9 016 413,94								9 016 413,94
STCU nr. 5985 Cu2ZnSnS4 for Environmentally Friendly Converters of Renewable Energy	The main objectives of the project are: 1)Optimization of the growth conditions of both the Cu2ZnSn(S,Se)4 (CZTSSe) films, prepared by post-selenization of sprayed Cu2ZnSnS4 (CZTS) films, and CZTSSe single crystals. 2) Study the electronic transport properties of CZTSSe films and single crystals. 3)Determination of the optical functions of CZTSSe films and crystals such as absorption coefficients using transmission and reflection measurements. 4)Study the radiative recombination in CZTSSe films and crystals by photoluminescence spectroscopy. A major attention will be given to the establishment of a relationship between photoluminescence properties of crystals and films and their preparation conditions. 5)Raman scattering analysis of CZTSSe films and crystals. Raman scattering will be applied for the identification of structural inhomogeneities as secondary phases and polytypic domains in crystals and thin films. 6)Design of device structures on the base of CZTSSe thin layers for photovoltaic.	The main purpose of this project is fabrication and investigation of CZTSSe films, prepared by post-selenization of sprayed CZTS films, comparative study CZTSSe thin films and single crystals as well as the establishment of the relationship between the composition and homogeneity of the thin films, crystals and their preparation conditions in regard to the fabrication methods of CZTS based solar cell devices.	01/02/2015	31/01/2017	International University	Grant							20 185,78						20 185,78

Energy to Innovation - Reinforcing cooperation with ENP countries on bridging the gap between energy research and energy innovation (Ener2i)	Ener2i concentrates on the following main objectives: - To enhance the innovation capacity and improve the innovation performance of manufacturers, energy service companies and industry in the field of energy efficiency (EE) and renewable energy sources (RES); - To improve knowledge transfer and innovation support in the field of EE/RES through a comprehensive trans-national cooperation; - To stimulate effective linkages between research and innovation with effective knowledge transfer methods in the participating EaP countries Armenia, Belarus, Georgia, and Moldova; - To strengthen cooperation between research and business actors in EE/RES in the participating countries and at the same time facilitating the cooperation between EU and participating EaP countries.	Ener2i goal is to accelerate innovative performance by improving knowledge transfer and innovation support renewable energy and energy efficiency.	01/10/2014	01/10/2016	European Union	Grant					329 853,15								329 853,15
STCU nr.5986 Development of anisotropic thermoelectric devices based on semimetal microwires	We intend to develop anisotropic thermoelectric generator (ATG) which will use human heat for generating voltages suitable for power supply of devices with low current consumption (for example, hearing aid). The developed ATG module can be used as rapid nonselective IR detector and gradient heat flux sensor (GHFS) with a characteristic time above 10-3 s. GHFS is used for the direct measurement of heat fluxes to a flat plate in pulsed hypersonic gas flow.	We intend to develop anisotropic thermoelement base on long semimetal microwire in glass coating which will be used in many heat harvesting applications.	15/02/2015	25/02/2017	International University	Grant						40 372,37							40 372,37
Green Light Moldova – Modernisation and Saving Energy in Street Lighting	This project will work on the modernization and installation of modern, energy efficient street lightings in the three municipalities of Ocnita, Soroca and Cantemir; The project is planned for 24 months and the EU is to finance 80% of the total cost of the project.		31/12/2014	31/12/2016	European Union	Grant					400 000								400 000

CROSS BORDER BUSINESS COOPERATION NETWORK UA-RO-MD		The Cross Border Business Cooperation Network UA-RO-MD proposes to develop and adapt the cross border regional labour force skills, competences and qualifications in accordance to the labour market needs; to support the SME's growth and overall increase the number of SME's in order to improve the economy of the region and limit the migration; to promote trade, visits and missions, marketing initiatives and joint product promotion; to develop cross-border training for staff in SME's in areas such as: management, cross-border marketing, transport administration, cross-border trade and ecology; to supply the local entrepreneurship s and businesses with the needed information regarding cross-border trade and partnership, specific legislation and standards, business planning, ecology and CBC projects.	04/04/2012	04/04/2013	European Union	Grant				269 394									269 394
LEAD YOUR WAY TO BUSINESS	To expand, intensify and improve the process of the cross-border cooperation between R.Moldova and Romania by encouraging and supporting young people from both regions to initiate business activities and set up SMEs with a strong social and economic cross-border impact, and thus, to contribute, in the long run, to the reduction of the emigration process amidst youngsters, creation of new job places and improving the overall economy of the regions.	1. To create an efficient cross-border institutional framework to support start-up businesses and potential entrepreneurs in the Republic of Moldova and Romania;2. To develop and improve entrepreneurial skills and abilities of the 100 young people from the Republic of Moldova and Romania (districts: Iasi, Vaslui, Suceava); 3. To prepare, stimulate and support 100 young potential entrepreneurs from the Republic of Moldova and Romania (districts: Iasi, Vaslui, Suceava) to plan, prepare and initiate sustainable cross-border business activities;4. To facilitate cross-border dialogue and stimulate cross-border partnership links between 100 young potential entrepreneurs themselves, as well as between young potential entrepreneurs and 20 experienced business owners the project eligible areas.	21/03/2012	19/01/2014	European Union	Grant				375 743									375 743

Competitiveness Enhancement and Enterprise Development II (CEED II)	Proiectul Cresterea Competitivitatii si Dezvoltarea Intreprinderilor II (CEED II) sustine eforturile Moldovei de promovare a unei economii puternice, diversificate si orientate spre export prin imbunatatirea competitivitatii si eficientei ramurilor cheie ale industriei moldovenesti. CEED II completeaza si sustine strategia Guvernului Republicii Moldova de asigurare a cresterii economice prin atragerea investitiilor si promovarea exporturilor. Proiectul va spori competitivitatea in ramurile industriale selectate prin marirea productivitatii, cresterea comertului si investitiilor si consolidarea dialogului dintre sectorul public si cel privat in vederea crearii unui mediu de afaceri mai bun. CEED II isi concentreaza eforturile in sase ramuri industriale traditionale - confecții si textile, accesorii moda, mobilier, tehnologii informationale (TI), vinuri, si turism. Proiectul dezvolta capacitatea de advocacy si de analiza a politicilor sectorului privat si tinde sa sporeasca nivelul de constientizare de catre decidentii politici a preocuparilor sectorului privat pentru motivarea deciziilor care vor ameliora mediul de lucru al ramurilor industriale selectate si vor duce la o crestere si competitivitate sporita.	08/12/2010	07/06/2015	United States	Grant			4 137 014,21	1 280 956,45	903 427,61	1 851 508,43								8 172 906,69
ECO-CARPATIANS - Eco-Business Development in Border Carpathians as Chance for Better Economic Competitiveness	The overall objectives are: (a) to promote cross-border cooperation between mountain area, in production and marketing of farm products, of traditional handicrafts and eco-tourism in order to develop a solide eco-economy through consolidation of small business; (b) to develop an eco-destination in cross border area (a common eco-tourism brochure will be produced) and to improve the knowledge about eco-tourism at EU standards, best practices transfer, development of thematic trails in all tree areas (in RO, UA, MD); (c) to improve competitiveness across the mountain economy, through innovative start-ups businesses, based on eco and green economy principles; (d) to improve the mountain infrastructure through thematic trails in all three areas (RO, UA, MD).	The specific objectives are: (a) to determine needs and potential of mountain areas in eco-tourism development by conducting research; (b) to increase the quality and number of eco tourism services in the regions available to international and domestic visitors (eco-entrepreneurship trainings, trainings for local authorities and accommodation trainings); (c) jointly create a system of eco-tourism and EcoBucovina promotion by creating a brand and logo, producing 1 short advertising film, organizing eco mountain festival, developing 5 eco-trails; (d) to investigate the opportunity in three countries for opening up border access for eco-tourists.	20/11/2013	19/09/2015	European Union	Grant					2 500								2 500

GENERAL AGRICULTURAL CENSUS 2010	The overall objective of the Project is to provide the Government of Moldova updated agriculture data at the community level that will be necessary for policy formulation for agriculture, rural development and insurance of food security in order to achieve sustainable development. The census will establish a data base which will serve as foundation for a sound system for collection of reliable statistical data in agriculture. The data will meet the EU standard in the area, and the data will be gender disaggregated.	The overall objective of the Project is to provide the central and local public authorities, public at large with relevant statistical data for policy formulation for agriculture, rural development and for negotiations for joining of the Republic of Moldova to European Union. Main GAC objectives:• Obtaining exhaustive data on the structural features of agriculture as a result of transformations that occurred in the post-privatisation period; providing complex and comparable data on agricultural activity at national, regional, territorial administrative units of 3rd level;• Determine the types of agricultural holdings, use of agricultural land, types of activities performed within agricultural units, potential production of these depending on agricultural area used, number of parcels, irrigation, fertilisation, livestock, agricultural constructions, agricultural machinery and equipment, labour force, etc.; Consolidation of agricultural statistical system, establishing of a solid database between the census periods that would make possible for a sample survey system in agriculture, starting from an up-dated database.	01/12/2010	30/09/2013	Sweden	Grant		2 227 680												2 227 680

DEVELOPMENT OF MOLDOVAN SMALL FARMERS' BUSINESS SKILL BY ENHANCING KNOWLEDGE TRANSFER.	The objective of the project is to contribute to the improvement of the economic situation of small and medium size farmers in Moldova	Enhanced communication skills of FNFM with regard to its mission; Setting up the environment for business partnership between Czech producers of agricultural equipment/machinery and Moldovan farmers; Making and distribution of TV programs for farmers; Final report.	01/07/2012	29/11/2013	Czech Republic	Grant				96 265,82										96 265,82
Financing Agreement between the Republic of Moldova and International Development Association on Project "Emergency Agriculture Support"	Proiectul propus are drept obiectiv principal diminuarea efectelor negative ale secetei din anul 2012, prin acordarea suportului fermierilor pentru restabilirea productiei de porumb si griu, precum si prevenirea reducerii efectivului de animale in cele mai afectate regiuni. Astfel, vor fi sustinute eforturile Guvernului in abordarea situatiei de urgenta, prin reducerea riscurilor extinderii si facilitarea procesului de recuperare urmare a secetei. Pentru a atinge aceste obiective, activitatile proiectului se vor orienta la oferirea asistentei tehnice si financiare fermierilor din cele mai afectate regiuni ale tarii, investitiile fiind astfel directionate inspre insamintarea porumbului si a griului. Porumbul constituie un element important in hrana animalelor, iar lipsa acestuia ar putea conduce la diminuarea efectivului de animale. Proiectul „Suport de urgenta pentru agricultura Moldovei” completeaza urmatoarele doua proiecte ale Bancii Mondiale, care sunt in prezent in curs de implementare: (i) Proiectul de management al dezastrelor si riscurilor climatice si (ii) Proiectul Agricultura Competitiva. Astfel de practici sunt un element esential al ajutorului acordat agricultorilor in vederea adaptarii la schimbarile climatice si sustinerii acestui sector astfel, incit acesta sa devina mai rezistent la variatiile climatice. Proiectul consta din urmatoarele trei componente: (i) transferuri de bani pentru agricultorii afectati, (ii) instruire si sensibilizare si (iii) management de proiect. Development of the agriculture sector through creation of an agricultural cross-border network	Increasing productivity and competitiveness of the agricultural sector through increased contact of partners on both sides of the border, in order to improve the economic situation in the program area. This objective is related to the objectives of Measure 1.1 1.1 Improving the productivity and competitiveness of rural areas and urban areas by CBC	1. Creation of a border between the Republic of Moldova, Ukraine and Romania; 2. Creating an agro-industrial logistics park in the district Singerei, who represent about a central border network; 3. Adaptation of product quality to international standards; 4. Implement and develop post harvest infrastructure in agro-industrial logistics park; 5. Development of basic services for sorting, freezing and storage of fruit within agro-industrial logistics park; 6. Development of consultancy services, management services, procurement, marketing, product development, accounting, accounting for farmers in agro-industrial logistics park; 7. Creating and managing a place exposure for products "Made in the border area" in the Market vineyards Botosani 8. To organize exchanges of experience and knowledge in the field of agriculture between experts in the border area; 9. Promotion of "manufactured in the border area" in international markets;	01/11/2013	31/08/2015	European Union	Grant					552 597,19									552 597,19
Protection of borders against threats posed by homeless animals	Overall objectives are reducing and preventing the spread of dangerous infectious diseases that are transferred by stray animals and are a dangerouse for people and animals in the boundary areas; preventing uncontrolled breeding of domestic and homeless pets; creation of the population-safe and harmless conditions; providing sanitary welfare.	Specific objectives are creating a shelter for homeless animals; elimination of uncontrolled reproduction of homeless animals through sterilization; vaccination of animals; development and creation of working with pet owners, creation of home pet center identification; coordination, information, management of all target groups, beneficiaries, other project participants.	18/12/2013	17/10/2015	European Union	Grant					13 675									13 675

DESASTER AND CLIMATE RISK MANAGEMENT IN MOLDOVA PROJECT	Component A: Capacity building for forecasting severe weather conditions is intended to strengthen the capacities of the State Hydrometeorological Service of severe weather forecasting and to provide policy makers and other users timely forecasts and warnings more effective and diverse. Component B: Increase the disaster preparedness and emergency response aims to strengthen government capacity to manage emergencies and to respond with a coordinated response of government agencies of various levels of disaster by creating and operating a center emergency order under the Civil Protection and Emergency Service and associated capacity building activities. Component C: Initiation of adaptation to climate change in agriculture is aimed at supporting the practical application of agrometeorological information in the agricultural sector to increase resistance to weather effects. This objective will be achieved through support for the following activities by developing a platform of communication and providing operational consulting services to adapt to adverse weather conditions.	Strengthening capacities to: (i) monitor weather and issue early warnings of weather-related hazards by providing timely and accurate hydrometeorological forecasts and services; (ii) manage and coordinate responses to natural and man-made disasters; and (iii) help individuals, particularly farmers, be aware of, and adapt to natural hazards and climate variability. The Project includes three main components, divided in sub-components: Component A: Strengthen Severe Weather Forecasting Sub-Component A.1 – Develop of Early Warning/Nowcasting Capabilities Sub-Component A.2 – Dual Polarization Radar Technology for Localized Forecasts Sub-Component A.3 – Development of Plans for Seasonal/Climate Forecasts Component B: Improve Disaster Preparedness and Response Sub-Component B.1 - Feasibility Study and Design of the Emergency Command Center Sub-Component B.2 - Establish Emergency Command Center Sub-Component B.3 – Capacity Building and Evaluation of ECC Component C: Initiate Adaptation to Climate Risks in Agriculture Sub-Component C.1 – Development of a Just-in Time Communication Platform Sub-Component C.2 – Adverse Weather Adaptation Advisory Services	10/11/2010	30/06/2016	World Bank	Soft Loan		1 552 674,48												1 552 674,48

RURAL FINANCIAL SERVICES AND AGRIBUSINESS DEVELOPMENT PROJECT (RFSADP) - IFAD 5	THE OVERALL GOAL of the RFSADP is reduction of income poverty and malnutrition among poor rural people in Moldova. (to sustainably improve the assets and incomes of about 37,000 poor rural Moldovan beneficiaries).	The Project would contribute to the achievement of the two STRATEGIC OBJECTIVES of the IFAD 2007 Results-Based Country Strategic Opportunities Programme (RB-COSOP), which are: (i) establishing pro-poor market linkages for the rural poor through support for competitive commodity value chains, including market research and development, business development services and producer associations; and achieving international quality standards in production, processing and packaging; and (ii) (i) promoting access to a full range of appropriate and mainstreamed financial services, with a particular emphasis on products that support the development of sustainably improved incomes for the most vulnerable and poorest groups in rural areas. Accordingly, the objective of the RFSADP would be to sustainably improve the assets and incomes of about 37,000 poor rural Moldovan beneficiaries.	04/07/2011	03/07/2016	Denmark, United Nations	Grant, Soft Loan			16 348 445										16 348 445

Establishment and promotion of new approaches and tools for the strengthening of primary sector's competitiveness and innovation in the South East Europe (APP4INNO)	The main objective of the project is to set up a transnational competitiveness support system for exploiting the innovation potentials of the agricultural SMEs across the SEE regions, allowing to create the framework conditions for SMEs to access to innovation, technology transfer and cooperation as major keys for their competitiveness in the international markets.	The specific objectives of the project are the following: SO1. To establish a transnational technical support system able to support innovative entrepreneurship and to improve the market opportunities of SMEs of the agricultural productive chains, focusing on the local typical productions with the highest added value potentials which are, at the same time, backed by local cultures and traditions; SO2. To promote the setting up, the development (mainly by the transfer from other economic sectors, i.e. advanced industrial sector and third sector) and the spreading of approaches, services and tools to improve the competitiveness of the agricultural SMEs, not only in terms of improvement of productive processes at the level of the single SME but also, and above all, in terms of clustering enterprises in order to increase the efficiency of the applied production means; SO3. To support the exploration and penetration of new international markets for the local agricultural SMEs; SO4. To provide methodologies, addresses, factual evidences for the definition and improvement of agricultural and innovation policies and incentives, allowing to determine a durable and measurable increase of the agricultural sector competitiveness and promoting at the same time a more effective use of national incentives for agriculture which would benefit of a transnational knowledge; SO5. To increase the competences of the entrepreneurs as well as of the technology and innovation actors and of the local, regional and national governments, by raising their capacity as well as by promoting the establishment of virtuous transnational know-how into productive processes, tools and policies respectively.	30/11/2013	29/11/2014	Hungary	Grant					7 700	84 910								92 610

Trade Capacity Building Training Programme in Central Asia, Caucasus and Western CIS (Regional Project)	In line with the mandate of the UNIDO Institute for Capacity Development, and UNIDO as a whole, the objective of the project is to build national capacities in the area of trade and quality standards. The project intends to design and conduct an advanced training program to: (1) Train government, trade and industry leaders on managing economic integration process through removal of trade barriers, harmonization and simplification of procedures and regulations and improving trade rules, policies and procedures within their respective countries; and (2) Train quality professionals on best practices and best models for a modern quality infrastructure. It particular the project will develop the following two training components: (1) National Trade Capacity Development Training Programme for middle level policy makers and (2) Building Quality Infrastructures Training Programme for quality professionals.		01/10/2012	31/12/2014	Poland	Grant				70 000									70 000
Co-operation of SEE science parks for the promotion of transnational market uptake of R&D results and technologies by SMEs	The main objective is to improve and develop support services to innovative SMEs provided by university based SME-support centres and science parks in order to facilitate the take-up of research ideas and products through better access to knowledge, resources and markets locally and at transnational level. The project ultimately targets innovative SMEs, which are able to embrace research products or may be the carriers of such ideas but currently face difficulties in access to management-type knowledge, facilities and support services. The project aims at the establishment of new and durable joint transnational services, tools and frameworks and will put into practice developed and improved methods and explored good practices.	The specific objectives are: a) Improve the market potential and entry of research-intensive and high-added value products of innovative SMEs by the development of the quality and portfolio of SME-support services at university-based SME-support centres. b) Improve access of innovative SMEs to human and physical resources through university-based SME-support centres by pooling and registering such resources at a transnational level and mobilising new and unused resources. c) Improve access of SMEs to research ideas and products and to services offered by universities by developing effective means of communication and publicity.	14/11/2013	31/12/2014	European Union	Grant					12 572,5	98 375,8							110 948,3

Reducing Greenhouse Gas Emissions Through Improved Energy Efficiency In The Industrial Sector	The ultimate goal of the GEF project is to reduce greenhouse gas emissions by contributing to establish a policy and normative environment that enables and supports sustainable adoption of energy efficient technologies and management as an integral part of industries' business practices; an environment in which a cadre of well-trained and equipped experts in energy management and system optimization assists industries in developing and implementing energy efficiency improvement projects.		18/08/2010	31/12/2014	Global Environment Facility	Grant		3 309 137,49											3 309 137,49
Forming a Network of Innovative Infrastructure Institutions in Cross- Border Region (2013 – 2015)	The overall objective of the project is upgrading competitiveness of cross-border region of Romania - Ukraine - Republic of Moldova by forming the cross border network of innovative infrastructure institutions, increasing their capacity, consolidation them into a joint research space and inclusion of it to the European research space. Specific objectives: 1. Development of Joint Ukrainian-Moldavian-Romanian Plan for expansion of communication and cooperation in technology transfer and promotion of the innovation infrastructure in the cross-border region; 2. Creating conditions for the development of technology transfer and for the improvement of the innovation infrastructure in the cross-border region, which will increase the number of SMEs and support their growth; 3. Intensification of contacts, cooperation and exchange of experience between Ukrainian, Moldavian, Romanian and EU innovative institutions; 4. Increasing innovation culture level of target groups, stakeholders and final beneficiaries; 5. Maintenance of Innovation and R&D activities by the innovative institutions; 6. Improvement of investment climate of cross border region through the development of innovative infrastructure.	Proposed project is aimed on upgrading competitiveness of cross-border region of Romania-Ukraine-Republic of Moldova by forming the cross border network of innovative infrastructure institutions, increasing their capacity, consolidation them into a joint research space and inclusion of it to the European research space.	10/12/2013	09/06/2015	European Union	Grant					470 535								470 535

SUPPORT TO CONSUMER PROTECTION AGENCY (TWINNING)	To contribute to the implementation of the requirements for market surveillance in line with the requirements of EU regulatory instruments. To implement the national legislation regulating market surveillance in accordance with European standards and best practises.	1. Review of the legal framework to enable the Main State Inspectorate for Market Surveillance, Metrology and Consumer Protection to fulfil its role with respect to the organisation, management and delivery of market surveillance services, focusing on consumer product safety.2. Definition and specification of the equipment necessary to implement market surveillance activities in the field and a review of the specialist support required by the MSI in order for them to be able to perform their market surveillance duties in relation to consumer product safety.3. Development of the skills and knowledge of the staff of the Main State Inspectorate to implement their tasks related to managing and delivering market surveillance services, particularly with reference to product safety for consumer protection in accordance with EU practice.	18/06/2012	17/05/2014	European Union	Grant				1 000 000										1 000 000
STRENGTHENING THE CAPACITY OF THE CENTRE OF ACCREDITATION IN THE FIELD OF PRODUCTS CONFORMITY ASSESSMENT OF THE REPUBLIC OF MOLDOVA (TWINNING)	The overall objective of this project is to improve the trade competitiveness of the Republic of Moldova (further – Moldova) and to harmonize the quality infrastructure with international and European standards.	1. The legal framework enables the Accreditation Centre to fulfil its role with respect to ISO/IEC 17011 and the relevant provisions of EU regulation 765/2008/EC. 2. The Accreditation Centre Quality Management System, governance framework and assessment competences allow initiation of the process of peer assessment for a Multilateral Agreement with European Co-operation for Accreditation. 3. New skills and accreditation schemes are introduced enabling the Accreditation Centre to optimise its support to key areas of Conformity Assessment. Accreditation use is improved through greater understanding of the obligations and opportunities of ensuring the parity of Conformity Assessment.	15/05/2012	15/05/2014	European Union	Grant				1 040 000										1 040 000

Trade Capacity Building Training Programme in Central Asia, Caucasus and Western CIS (Regional Project)	In line with the mandate of the UNIDO Institute for Capacity Development, and UNIDO as a whole, the objective of the project is to build national capacities in the area of trade and quality standards. The project intends to design and conduct an advanced training program to: (1) Train government, trade and industry leaders on managing economic integration process through removal of trade barriers, harmonization and simplification of procedures and regulations and improving trade rules, policies and procedures within their respective countries; and (2) Train quality professionals on best practices and best models for a modern quality infrastructure. It particular the project will develop the following two training components: (1) National Trade Capacity Development Training Programme for middle level policy makers and (2) Building Quality Infrastructures Training Programme for quality professionals.		01/10/2012	31/12/2014	Poland	Grant				70 000									70 000	
Improving Trade and Productive Capacities of Moldovan Fresh Fruit Producers projects	The objectives of the project are: - Identify capacity development needs of existing associations of fresh fruits growers/producer s/exporters and their members; - Strengthen capacities of partner associations and development of trade and productive potential of Moldovan producers/growers and exporters of fresh fruits; - Promote new technologies for growing fruits, storage and marketing (i.e., along the whole value chain); - Transfer best practices in fruit growing sector with special reference to tools for effective production methods, a better market access and spread of knowledge and new technologies through networking and direct contacts with fruit producers in EU countries; - Facilitate active participation of Moldovan fresh fruits producers/exporters in fairs and trade exhibitions abroad.	Effective implementation of the project will help local fresh fruit producers and exporters develop strong associations, increase quality of fresh fruit products by implementing modern technologies that will lead to more wholesale contracts and new sales partners with local and international companies. On the long-term run, this initiative will increase overall image of Republic of Moldova as exporter of high quality products, reduce unemployment, raise incomes and, ultimately, create a more inclusive and sustainable human development.	01/07/2011	31/05/2014	Finland	Grant			377 261,08											377 261,08
Reconstruction and re-equipping the educational center within Gagauzia branch of the Chamber of Commerce and Industry of the Republic of Moldova	To create more favorable work and educational process conditions.		28/07/2015	09/10/2015	Turkey	Grant						27 190,79								27 190,79

ENABLING ACTIVITIES FOR THE PREPARATION OF THE THIRD NATIONAL COMMUNICATION UNDER THE UNITED NATIONS FRAMEWORK CONVENTION ON CLIMATE CHANGE	The project objective is to enable the Republic of Moldova to prepare and submit its Third National Communication to the COP of the UNFCCC in accordance to its commitments as a non-Annex 1 Party of the Convention. The main aim of the project is to develop and enhance national capacities and facilitate the process of mainstreaming climate change, and consider it not only as environmental issue but as a sustainable development.	1. The project will contribute to the global effort to better understand the sources and sinks of greenhouse gases, potential impacts of climate change, and provide effective measures to achieve the ultimate objective of the UNFCCC, which is "to stabilize greenhouse gas concentrations in the atmosphere at a level that would prevent dangerous anthropogenic interference with the climate system" ² . The project will help to identify project proposals related to climate change, eligible for further funding by donors community or co-funding by GEF, other multilateral or bilateral organizations and eligible for funding, inclusive under Clean Development Mechanism (CDM) of the Kyoto Protocol as well as under any other global economical mechanisms focused on climate change mitigation, in accordance with the Convention's principles and provisions in the post-Kyoto period. ³ . In addition, the project will contribute to enhance general awareness and knowledge on climate change related issues and to strengthen the dialogue, information exchange and cooperation among all the relevant stakeholders including governmental, non-governmental, academic and private sectors in accordance to the Article 6 of the UNFCCC and implementation of New Delhi Programme.	01/10/2010	30/09/2013	United Nations	Grant		442 605,39											442 605,39
TECHNOLOGY NEEDS ASSESSMENT	Since 2001, a number of developing country Parties to the UNFCCC have conducted TNAs within the framework of their national development plans and strategies, review of these early TNA processes revealed significant operational and methodological constraints that compromised the quality, comprehensiveness and utility of the resulting country TNA reports. A new project has been designed to assist countries in carrying out improved TNAs supported by Global Environment Facility GEF grant financing. Project activities include in-depth analysis and prioritization of technologies, analysis of potential barriers hindering the transfer of prioritized technologies and analyses of potential market opportunities at the national level; all activities are organized around three main components	TNA is a means by which to track evolving needs in developing countries for new equipment, techniques, practical knowledge and skills.	11/04/2011	30/09/2012	United Nations	Grant			84 600										84 600

First Development Policy Operation 2014	The proposed operation is built around three pillars, which are also the PDOs: Pillar A: Strengthen the regulatory framework to improve predictability of the business environment, facilitate competition and reduce regulatory compliance costs. Pillar B: Strengthen financial sector stability, promote transparency of shareholding and ease conditions for access to finance. Pillar C: Improve the public investment management framework, make investment subsidies in agriculture more efficient and equitable and improve the coverage of well-targeted social assistance programs.		28/03/2014	31/10/2014	World Bank	Soft Loan						10 913 059,29							10 913 059,29
SUSTAINABLE PUBLIC AREAS FOR CULTURE IN EASTERN COUNTRIES (SPACES)	Exploring spaces of possibilities for culture, arts, public space and civil society by initiating and establishing two interlinked processes. Investigating culture, art, public space and civil society by initiating and establishing two processes interact.	a. capacity building processes for independent cultural actors that are based on participatory art/culture events in public space;b. policy development processes related to the independent scene and the urban dwellers.	01/12/2011	30/11/2014	European Union	Grant			11 494										11 494
Strategic Territorial Agendas for "Small and Middle-Sized Towns" Urban Systems (STATUS)	Project overall objective is to assist city authorities of the SEE countries in developing Strategic Territorial/Urban Agendas (ST/UA), as a tool for sustainable and integrated development in line with 21st century standards, and in implementing Urban Centers (UC), as places where to shape, together with active local actors, the planning process that leads to the definition of strategic visions and the design of integrated urban plans: from urban regeneration to urban development.	* Familiarizing the SEE municipalities with integrated urban programming approaches; * Setting up cooperation structures and business opportunities between main stakeholders in small and medium sized cities, while promoting operational partnerships among municipalities, investors, knowledge institutes and the third sector; * Creating a city-platform for exchanging knowledge on urban and territorial development themes, with the initial focus being the South East Europe cities and urban systems;	02/12/2013	30/11/2014	European Union	Grant				73 749,6	18 437,4								92 187
REDUCING GREENHOUSE GAS EMISSIONS THROUGH IMPROVED ENERGY EFFICIENCY IN THE INDUSTRIAL SECTOR IN MOLDOVA	The ultimate goal of the GEF project is to reduce greenhouse gas emissions by contributing to establish a policy and normative environment that enables and support sustainable adoption of energy efficiency technologies and management as an integral part of industries' business practices; an environment in which a cadre of well-trained and equipped experts in energy management and system optimization assists industries in developing and implementing energy efficiency improvement projects.	The project will provide investments-specific technical assistance, including engineering studies and project financing, to support the development and implementation of a limited number of pilot IEE projects with high replication or energy savings potential in key sectors of Moldova's industry such as food processing, textile, manufacture of non-metallic products and light manufacturing.	18/08/2010	31/12/2014	United Nations	Grant			718 080										718 080

Strengthening capacities for building environmentally sound management with E-waste in the Republic of Moldova	The project overall goal consists of analysis of current situation in WEEE management in Moldova and providing of legal support on drafting the specific legislation. Currently version of the draft Law on waste contains several articles regarding the WEEE management, but others requirements in this field need to be established in the secondary legislation. In this regard we plan to provide a technical assistance in preparing the draft of secondary legislation for establishing an integrated system for DEEE management. Other issue that need to be addressed is to initiate the procedure for development of the software for the EEE producer's registration.	* Develop the draft of the secondary legislation on WEEE management in Moldova. Develop software for the EEE Registry, based on common platform for the National Registries (approved prior by the E-governance within the state chancellery)	06/09/2013	31/12/2014	Slovakia	Grant					36 000	74 230							110 230
Capacity-building to promote synergies on the coordinated implementation of the Basel, Rotterdam and Stockholm Conventions in Belarus, Moldova and the Republic of Macedonia	The general objective of the project is to strengthen national capacities to effectively implement the Basel Rotterdam and Stockholm Conventions in a coordinated and integrated manner		07/04/2014	30/09/2014	United Nations	Grant													34 590,97
HCFC PHASE-OUT MANAGEMENT PLAN (HPMP) - STAGE 1- TRANCHE 1	Management of environmental and natural resources is improved in compliance with international/ EU standards		01/07/2011	29/12/2014	United Nations	Grant			60 749,17										60 749,17
National Biodiversity Planning to Support the implementation of the CBD 2011-2020 Strategic Plan in Republic of Moldova	Projects objective is to integrate Moldova's obligations under the Convention on Biological Diversity (CBD) into its national development and sectoral planning frameworks through a renewed and participative 'biodiversity planning' and strategizing process, aligning the results of the process to the global guidance contained in the CBD's Strategic Plan for 2011-2020.	The project's goal is to enable Moldova to integrate its CBD obligations into national planning processes, in light of the CBD's Strategic Plan 2011-2020.	01/12/2011	31/12/2014	Global Environment Facility, United Nations	Grant			55 246,49	107 379,86	14 657,6								177 283,95
STRENGTHENING CAPACITIES TO UNDERTAKE ENVIRONMENTAL FISCAL REFORM TO MEET NATIONAL AND GLOBAL ENVIRONMENTAL PRIORITIES	This project sets out to build capacities for implementing environmental fiscal reforms (EFR) that will produce increased national and global environmental benefits through the adoption of selected subsidies, fees, fines, taxes and other appropriate fiscal instruments.	The project goal is to strengthen regulatory and other approaches to environmentally sound and sustainable development, with a particular emphasis of meeting obligations under the three Rio Conventions.	28/10/2011	26/12/2014	United Nations	Grant			343 051,01										343 051,01
Mainstreaming Biodiversity Conservation into Moldova's Territorial Planning Policies and Land-Use Practices	The project aims to establishing an enabling environment for mainstreaming biodiversity into land use planning, compliance monitoring and enforcement and test at the local level models of biodiversity compatible spatial planning and land-use.	The project intends to remove the barriers for mainstreaming biodiversity priorities into district territorial planning policies and land use practices.	01/01/2014	31/08/2014	United Nations	Grant						33 194,24							33 194,24

DESASTER AND CLIMATE RISK MANAGEMENT IN MOLDOVA PROJECT	Component A: Capacity building for forecasting severe weather conditions is intended to strengthen the capacities of the State Hydrometeorological Service of severe weather forecasting and to provide policy makers and other users timely forecasts and warnings more effective and diverse. Component B: Increase the disaster preparedness and emergency response aims to strengthen government capacity to manage emergencies and to respond with a coordinated response of government agencies of various levels of disaster by creating and operating a center emergency order under the Civil Protection and Emergency Service and associated capacity building activities. Component C: Initiation of adaptation to climate change in agriculture is aimed at supporting the practical application of agrometeorological information in the agricultural sector to increase resistance to weather effects. This objective will be achieved through support for the following activities by developing a platform of communication and providing operational consulting services to adapt to adverse weather conditions.	Strengthening capacities to: (i) monitor weather and issue early warnings of weather-related hazards by providing timely and accurate hydrometeorological forecasts and services; (ii) manage and coordinate responses to natural and man-made disasters; and (iii) help individuals, particularly farmers, be aware of, and adapt to natural hazards and climate variability. The Project includes three main components, divided in sub-components: Component A: Strengthen Severe Weather Forecasting Sub-Component A.1 – Develop Early Warning/Nowcasting Capabilities Sub-Component A.2 – Dual Polarization Radar Technology for Localized Forecasts Sub-Component A.3 – Development of Plans for Seasonal/Climate Forecasts Component B: Improve Disaster Preparedness and Response Sub-Component B.1 – Feasibility Study and Design of the Emergency Command Center Sub-Component B.2 – Establish Emergency Command Center Sub-Component B.3 – Capacity Building and Evaluation of ECC Component C: Initiate Adaptation to Climate Risks in Agriculture Sub-Component C.1 – Development of a Just-in Time Communication Platform Sub-Component C.2 – Adverse Weather Adaptation Advisory Services	10/11/2010	30/06/2016	World Bank	Soft Loan		3 105 348,96												3 105 348,96
Raising awareness about European integration in the Moldovan regions	Study visit and production of TV programmes by representatives of the Moldovan regional TV stations (journalist and cameraman) according to the three day schedule prepared by Estonian Eastern Partnership Center (ECEAP). The schedule includes stories from the capital and regions of Estonia. In addition, the public TV, Moldova 1, will be engaged.		01/08/2015	31/01/2016	Estonia	Grant						8 403,75								8 403,75

Republic of Moldova: Preparation of intended nationally determined contribution (INDC) to the 2015 Agreement under the United Nations Framework Convention on Climate Change (UNFCCC)	The project will support the Republic of Moldova to prepare and submit its intended nationally determined contribution (iNDC) to the 2015 United Nations Framework Convention on Climate Change (UNFCCC) Agreement and have institutional arrangements in place that support the INDC process. Information communicated by the Republic of Moldova to the UNFCCC will form an input to the negotiations leading towards the 2015 Paris climate agreement. At the national level, timely implementation of the project will facilitate the integration of climate friendly goals, policies and/or projects into planning processes. The project will support the Republic of Moldova to outline its intended contributions to the 2015 agreement, consistent with the negotiation elements under the UNFCCC i.e. mitigation, adaptation, finance, technology development and transfer, capacity-building, as well as transparency of actions and support. This reveals that the INDC project will not be a stand-alone project, but will be informed by existing climate change reporting initiatives such as national communications (NCs), biennial update reports (BURs), Technology Needs Assessment (TNA), Nationally Appropriate Mitigation Actions (NAMAs), and National Adaptation Plans (NAPs). Through this project, the Republic of Moldova will outline a "package" of proposed initiatives to enhance its national capacities and capabilities to reduce GHG emissions and better adapt to adverse impacts of climate change through provision of financial and technical support for INDCs implementation. The project will also support the Government to put up institutional arrangement and built capacities of national experts and stakeholders in INDC processes.	The project is being pursued to support the Republic of Moldova in the preparation of its intended nationally determined contribution (iNDC) to the 2015 Agreement under the United Nations Framework Convention on Climate Change (UNFCCC). Information communicated by the Republic of Moldova to the UNFCCC will form an input to the negotiations leading towards the 2015 Paris climate agreement. At the national level, timely implementation of the project will facilitate the integration of climate friendly goals, policies and/or projects into planning processes. The project will support the Republic of Moldova to outline its intended contributions to the 2015 agreement, consistent with the negotiation elements under the UNFCCC i.e. mitigation, adaptation, finance, technology development and transfer, capacity-building, as well as transparency of actions and support. Through this project, the Republic of Moldova will outline a "package" of proposed initiatives to enhance its national capacities and capabilities to reduce GHG emissions and better adapt to adverse impacts of climate change through provision of financial and technical support for INDCs implementation. The project will also support the Government to put up institutional arrangement and built capacities of national experts and stakeholders in INDC processes. The project main components are as follows: (1) Institutional arrangement for the preparation of intended nationally determined contribution (iNDC) to the 2015 UNFCCC Agreement; and (2) Preparation and submission of intended nationally determined contributions to the 2015 UNFCCC Agreement. The project will not only support the Republic of Moldova to build on existing climate change policies and strategies but also to develop additional policies and strategies within the framework of its development plans.	03/02/2016	03/02/2016	Global Environment Facility	Grant							200 000							200 000

Moldova towards EU regional and cross-border development "REGDEV"	The REGDEV aims: 1: To contribute to economic integration of Moldova into EU space through its regional and cross-border cooperation development in the framework of the European Neighbourhood Policy. 2: To contribute to the development of quality teaching, innovative research and human resources in the field of EU and regional development in the Moldovan higher education landscape in cooperation with students, academics, civic society and local governments. 3: To contribute to lifelong learning by establishing a network of young and distinguished scholars working on research related to the European Union integration process.	OB.1: To stimulate knowledge of EU economic integration of Moldova in the framework of the European Neighbourhood Policy through teaching of university courses within Bachelor and Master study programmes in accordance with the EU standards. OB.2: To prepare the new generation of specialist in EU Regional studies through educating students of 2nd level (Master) by designing and delivering of new course and through capacity building of representatives of civil society and civil servants from rural areas in the field of EU regional development by realising professional training courses and facilitating policy debates. OB.3: To integrate students who are not automatically come into contact with EU integration studies and to increase their understanding of the integration process of Moldova into EU space within European Neighbourhood Policy by realising an interuniversity training courses. OB.4: To enhance visibility of scientific resources and results in the field of European integration and regional development policies on regional, national and international levels by realising of the inclusive approach of the Conference's sessions and PhD Seminars. OB.5: To disseminate tailor-made information about European integration to a wider public in Moldova, with focus on regional and local levels, by involving of national and local mass-media in the REGDEV's issues.	01/09/2013	31/08/2016	European Union	Grant					35 904									35 904
INVENTORY, ASSESSMENT AND REMEDIATION OF ANTHROPOGENIC SOURCES OF POLLUTION IN THE LOWER DANUBE REGION OF UKRAINE, ROMANIA AND THE REPUBLIC OF MOLDOVA	The overall objective of the project is to reduce the environmental impact of chemical dumps and wastewater discharges in the Lower Danube region as well as enhance environmental monitoring of soil and water pollution and make the information publicly available.	• To improve knowledge of the current state of chemical dumps and wastewater discharges in the Lower Danube region and establish priorities on how to reduce or eliminate them;• To increase public awareness about sources of soil and water pollution	01/12/2013	30/09/2016	European Union	Grant					2 909 770									2 909 770
Fostering the Knowledge Triangle in Belarus, Ukraine and Moldova (FKTBUM)	Objectives of the project FKTBUM: - Support the development of the knowledge triangle in Belarus, Ukraine and Moldova, - Analysis of the weaknesses of the educational system and connect the system to the European standards, - Support and promote cooperation between the research, development and innovation, - Developing the skills and abilities of teachers in higher education institutions.	The aim of the project Support to the knowledge triangle in Belarus, Ukraine and Moldova (FKTBUM) is to support national education ministries in Belarus, Moldova and Ukraine in the integration of education, research and innovation.	01/12/2013	30/11/2016	European Union	Grant					377 924									377 924

Low-Emission Capacity Building Project	Strengthened national institutional and technical capacity contributes to an improved National GHG Inventory System; the implementation of NAMAs in the context of national development; and their monitoring, verification and progress reporting. Consolidarea capacitatorilor nationale la nivel institutional si tehnic va contribui la un Sistem National imbunatatit de Inventariere a gazelor cu efect de sera; implementarea actiunilor de atenuare la nivel national in contextul dezvoltarii nationale; precum si monitorizarea, verificarea si raportarea progresului.	The focus of the LECB Project in the Republic of Moldova is strengthening the national greenhouse gas inventory system; formulating Nationally Appropriate Mitigation Actions (NAMAs) in the context of LEDS; and designing a measuring, reporting and verification (MRV) system to support implementation and evaluation of NAMAs and LEDS. It will significantly contribute to the promotion, operationalization and implementation of the country's Low Emission Development Strategy. The project responds to the Republic of Moldova's socio-economic development challenges pertaining to environment and climate change, as captured in the Republic of Moldova's Low Emission Development Strategy (draft). The LECB Project in the Republic of Moldova will further respond to capacity gaps identified in the Second National Communication (SNC) of the Republic of Moldova to the UNFCCC (2010), as specified in the Chapter 7 "Constraints and Related Financial, Technical and Capacity Needs" and bring the Republic of Moldova closer to implementation of NAMAs formulated under the project. The project is further aligned with the Moldova - United Nations Partnership Framework (UNPF) for the Republic of Moldova 2013-2017's priority focus on strengthening the national policies and capacities to enable climate and disaster resilient, low emission economic development and sustainable consumption, thus accelerating the progress towards achieving the Millennium Development Goals (MDGs). The project also makes an important contribution to the achievement of Moldova's responsibilities upcoming in the recently initialed Association Agreement with the European Union, specifically the chapter on Climate Action which makes explicit reference to the cooperation on the development and implementation of the LEDS and long-term measures to reduce emissions of greenhouse gases.	01/01/2014	31/12/2016	European Union	Grant						466 705,44							466 705,44

NATO NUKR SFPP 984877 NATO Modeling and mitigation of social disasters caused by catastrophes and terrprism	1. Creating a set of tools, methods, models, and algorithms that allow detecting, monitoring, modeling, mitigating social disasters caused by terrorism and catastrophes of different nature. 2. Developing the methodology for scenario analysis regarding the field of social disasters. 3. Applying modified qualitative methods of the foresight methodology (Delphi method, morphological analysis method, analytical hierarchy method) to develop models suitable for description of the social disasters. 4. Constructing of scenarios for the social disaster, allowing to assess the mitigation methods and provide decision-making support regarding the best actions to reduce the negative consequences of a social disaster in the context of sustainable development.	The goal of the project is to create methodologies and adapt complex tools for detection, monitoring, modelling and mitigation of social disasters, provided by the situation analytical centre, established within the framework of the project. This will increase security in the country regarding the social aspects, including the possible social disasters caused by terrorism.	18/01/2015	18/01/2017	NATO	Grant						60 000								60 000	
Cooperation in border security assistance and preventing the proliferation of weapons of mass destruction	Strengthening of the border security of the Republic of Moldova in order to prevent the unauthorized transfer and transportation of weapons of mass destruction (hereinafter referred to as WMD) and related technology, materials, and expertise through the territory of the Republic of Moldova	Reducing the national vulnerability of illicit trafficking of nuclear materials or technologies relevant nuclear or radiological weapons development	01/08/2016	31/12/2016	United States	Grant								125 000							125 000
Capacity-building to promote integrated implementation of the Cartagena Protocol on Biosafety and the Convention on Biological Diversity at the national level.	Strengthening the capacity of the country to develop and test practical actions to promote integrated implementation of the Cartagena Protocol on Biosafety (CPB) and the Convention on Biological Diversity (CBD).	Improvement of the national sectoral policies with provisions of biosafety and biodiversity according the ICHL Targets 2020 on biodiversity conservation.	22/01/2016	31/12/2016	United Nations	Grant								27 757,22							27 757,22

Republic of Moldova: Preparation of the Fourth National Communication and First Biennial Update Report under the United Nations Framework Convention on Climate Change"	(a) The first objective is to undertake national stocktaking and stakeholder consultations to review work carried out under previous climate change enabling activities and identify gaps and propose relevant activities to be undertaken within the framework of preparing the NC3 under the UNFCCC. The process of preparing the project implementation plan for the NC4 and BUR1 should identify areas of synergy with relevant activities under other international environmental conventions (e.g. biodiversity, land degradation). It should also serve to identify major challenges ranging from cross sectoral assessments to mainstreaming climate change into national development planning frameworks and processes. The guidance for self-assessment exercise setting out the full details of the proposed project is appended as Appendix D. The consultations should be designed with a view to gathering information relevant to the components of the UNFCCC guidelines for National Communications and BUR1. The second objective is to prepare the NC4 and BUR1 of Moldova under the UNFCCC. To this end, it outlines the set of activities and outputs to be undertaken over two years for BUR1 and three years for NC4 and which will lead to the preparation and submission of the aforementioned reports following the NC3 submitted to the UNFCCC on 20 January 2014.	The goal of this project is to assist the country in mainstreaming and integration of climate change consideration into national and sectorial development policies by giving continuity to the institutional and technical capacity strengthening process, partly initiated and sustained by the National Communications.	30/04/2014	30/06/2017	Global Environment Facility	Grant							852 000							852 000	
Project Preparation of the Moldova Climate Adaptation and Forestry Project	The objective of the Project is to develop the technical and fiduciary design of the proposed Moldova Climate Adaptation and Forestry Project (MCAFP), prepare safeguards documents for MCAFP, and carry out necessary outreach and communication activities.	Development and implementation of Moldova Climate Adaptation and Forestry Project aims to support Moldova in achieving the objectives of Moldova's Climate Change Adaptation Strategy by 2020. By this, the projected activities will contribute to achieving the global objectives of the United Nations framework convention on climate change, to which Moldova is a party, and the objectives set out in the Chapter Climate Change from the RM-EU Association Agreement.	09/09/2016	09/09/2017	World Bank	Grant								350 000							350 000

DESASTER AND CLIMATE RISK MANAGEMENT IN MOLDOVA PROJECT	Component A: Capacity building for forecasting severe weather conditions is intended to strengthen the capacities of the State Hydrometeorological Service of severe weather forecasting and to provide policy makers and other users timely forecasts and warnings more effective and diverse. Component B: Increase the disaster preparedness and emergency response aims to strengthen government capacity to manage emergencies and to respond with a coordinated response of government agencies of various levels of disaster by creating and operating a center emergency order under the Civil Protection and Emergency Service and associated capacity building activities. Component C: Initiation of adaptation to climate change in agriculture is aimed at supporting the practical application of agrometeorological information in the agricultural sector to increase resistance to weather effects. This objective will be achieved through support for the following activities by developing a platform of communication and providing operational consulting services to adapt to adverse weather conditions.	Strengthening capacities to: (i) monitor weather and issue early warnings of weather-related hazards by providing timely and accurate hydrometeorological forecasts and services; (ii) manage and coordinate responses to natural and man-made disasters; and (iii) help individuals, particularly farmers, be aware of, and adapt to natural hazards and climate variability. The Project includes three main components, divided in sub-components: Component A: Strengthen Severe Weather Forecasting Sub-Component A.1 – Develop of Early Warning/Nowcasting Capabilities Sub-Component A.2 – Dual Polarization Radar Technology for Localized Forecasts Sub-Component A.3 – Development of Plans for Seasonal/Climate Forecasts Component B: Improve Disaster Preparedness and Response Sub-Component B.1 - Feasibility Study and Design of the Emergency Command Center Sub-Component B.2 - Establish Emergency Command Center Sub-Component B.3 – Capacity Building and Evaluation of ECC Component C: Initiate Adaptation to Climate Risks in Agriculture Sub-Component C.1 – Development of a Just-in Time Communication Platform Sub-Component C.2 – Adverse Weather Adaptation Advisory Services	10/11/2010	30/06/2016	World Bank	Soft Loan		3 105 348,96												3 105 348,96
